“Family Focus has been such a joy for me in my life. Lawyers are people too. I'm very proud of the contributions Sidley has been able to make over the long term. I have seen the difference - the real difference - Family Focus has been able to make. My team has seen that turn into better outcomes for families and opportunities for children to thrive.

My partners and colleagues believe in trying to make that progress in Chicago and around the world. Bernice, you inspire and continue to inspire us. You provide the spark that makes us want to make a difference. For that we are thankful and I've grateful on behalf of Sidley to receive this honor.”
